A FEW LINES... FROM THE DESK OF MIKE BONJO

Change, change, change... We have new boiler pricing in effect as of February 02, 2009. Please contact us if you have not received your new "price book" on CD. New parts pricing will be in effect April 01, 2009. You will be receiving that pricing in the next few weeks.

Also, the CT-35 has a new look. All CT-35 Boilers are now built with a standard skid base. The skid extends just a few inches on each side of the boiler and raises the boiler height a total of 3/4". The skid facilitates moving the boiler with a fork lift when a crane is unavailable. The boilers are also built with a new process that eliminates the problem of water seepage or weeping from behind the jacket when the boiler is initially fired. (See photo at left)

FROM THE INSIDE BY TODD BAINBRIDGE

A few things...

Our CT-50 gas now features a Power Flame JR50A-15 **Low-High-Off** burner replacing the **On-Off** model we have been using. This will provide the CT-50 with a smoother ignition.

We are now using Carlin gas burners on our smaller GL boilers. Models are as follows:

GL-18 & GL-20: **EZ Gas**

GL-22: **201 Gas**

GL-24: **202 Gas**

Need to replace a gas burner or convert from oil to gas? We have a wide selection of older gas burners in stock that we want to move. They are new in the box and come with full warranty, but are priced well below our current level for standard burners.

Here are some examples:

(1) Power Flame JR50A-15	\$1249.00	(CT-35)
(1) Power Flame CR2-GO-15 L/H/O Dual Fuel	\$2800.00	(CT-35)
(2) Power Flame CR3-G-20 L/H/L	\$2850.00ea.	(MPH-70)
(2) Power Flame CR2-GO-20B Dual Fuel	\$3100.00ea.	(WL-180)
(1) Webster JB2G-15-H.20-UL	\$3260.00	(MPH-80)
(1) Webster JB2G-20-H.20-UL	\$3360.00	(MPH-90)
(1) Webster JB2G-30-H.25-UL	\$3450.00	(MPH-100)

LEAD TIMES (STANDARD BURNERS):

<u>CT-6-CT-20</u>	Stock	<u>HRT-20-60</u>	8-10 weeks (40/50 in stock)
