## A FEW LINES... FROM THE DESK OF MIKE BONJO

### **Pre-Inventory Shutdown SALE Extended!**

Now through May 29th, take an additional 10% off your normal net cost (after discount) on select stock boilers. (L18 through WL-180, CT6 through CT20, LVWO, KWO, KWO-500, WL-60 Waste Oil). Boilers subject to prior sale. Our inventory shutdown takes place from June 26th—July 10th. Please mark your calendar. We will have limited ability to ship during this time.

### **MPH-C Condensing Boiler:**

We are now introducing the MPH-C high efficiency condensing boiler. The MPH-70, MPH-80, MPH-90 and MPH-100 are the sizes currently available. The MPH-20 through MPH-60 will be available later this summer. With the addition of Webster Engineering's Temp-A-Trim controls, MPH-C efficiencies can be increased up to a level of 89% in some applications. Please call Columbia Boiler for details.

## FROM THE INSIDE BY TODD BAINBRIDGE

Have you visited our website lately? We have made available Installation, Operation and Maintenance Manuals for many of our boilers. Downloadable PDF copies of the CT, L/GL, WL, CWH, and MPH manuals are available, as well as, for the LVWO, KWO/KWO-500 and L-24/WL-60 waste oil boilers. Additional information will be available on the website in the coming weeks.

We are also adding historic pictures of Columbia Boiler Company and our products from days gone by. So please join us in taking a look back at over 70 years of service to the boiler industry.

Check it out at [www.columbiaboiler.com](http://www.columbiaboiler.com)

(3) WL-60 Waste Oil Boilers

We are creating a database for all of our customers e-mail addresses, so that we are able to communicate with you more effectively. Please fill in the form below and fax to (610) 323-7292 or send an e-mail to [jmiller@columbiaboiler.com](mailto:jmiller@columbiaboiler.com).

## LEAD TIMES . . . STANDARD BURNERS :

|           |                   |              |            |
|-----------|-------------------|--------------|------------|
| CT 6-25   | Stock - 3 Days    | HRT/Keystone | 6-12 Weeks |
| CT 35-50  | 1 Week            | L/WL         | Stock      |
| Waste Oil | Stock (Less HRT). |              |            |

\*We also have various MPH boilers in stock. Call factory for availability.\*

## SPECIAL ORDERS:

Non-Standard Boilers or Burners may require a non-refundable deposit at the time of order placement.

Please consult factory for more details.

## WASTE OIL UPDATE:

### **New B-10 Burner Design:**

Columbia Boiler and Firelake Manufacturing have collaborated on an upgraded B-10 Waste Oil burner design. The new burner features:

1. Excess air wheel has been replaced with a lockable butterfly valve with finger screen.
2. Electrode adjustment has been moved further back on the air tube to allow adjustment of electrodes without having to pull the burner.
3. New burner has a more precise fit between the slide gun and receiver.
4. Burner mounting flange has been upgraded to a heavier gauge for improved rigidity.

The new burner will be available in black which looks great with the black boiler shell.

### **B-5 Burner now available with optional air compressor.**

In response to your requests, we are now offering the B-5 waste-oil Burner with an optional air compressor. This feature will allow smaller waste oil burners (less than 350MBTU) to operate without the use of dedicated shop compressors. Please call Columbia Boiler for pricing and details.
