#### What's New!

- Automatic surface blowdown is now an option on CT boilers. Call for details.
- The MPH 5, 10, & 15 are available for sale. Contact us for new spec sheets.
- We will begin stocking stainless steel feed tanks for sale in 2014.

### From the Inside by Todd Bainbridge / Inside Sales

We upgraded the design of the CT 10 through CT 50 models. Improvements include a new steel plate sealing method on the top ring, which is now impervious to flue gas leakage, and a wet leg pressure vessel design. The wet leg design added additional heating surface, allowing us in some cases, to reduce the height of the boiler.
